PROFESSIONAL SUMMARY

Results-driven **Software QA Engineer** with over 3 years of hands-on experience in manual testing, web application validation, and system data operations across corporate software environments and enterprise infrastructure systems. Proven track record in designing test cases, identifying cross-platform defects, executing end-to-end functionality testing, and maintaining strict data integrity. Skilled at validating web portals, e-learning/ educational platforms, customer support systems, and financial calculation tools.

SKILLS SUMMARY

- **Quality Assurance & Testing:** Software Quality Assurance (SQA), Manual & Functional Testing, Test Case Execution & Design, Bug Reporting & Tracking, Cross-Browser Testing, UI/UX Validation, Requirements Analysis
- **Domain & Application Experience:** Customer Support Platforms, Financial/VAT Calculation Systems, Institutional & Academic Web Portals, Data Integrity Management
- **Data Analysis & Systems:** Data Integrity & Confidentiality, MIS Principles, Report Generation
- **Programming Languages:** C++, Java
- **Soft Skills:** Critical Thinking, Leadership, Negotiation, Relationship Management, Cross-Functional Team Collaboration

WORK EXPERIENCE

Software QA Engineer | *Codezzi • January 2024 – Present (~2 Years 8 Months) | Dhaka, Bangladesh*

- Execute end-to-end quality assurance, manual functional testing, and user flow validation for enterprise and client web applications.
- Perform multi-browser and responsive UI/UX testing across diverse digital applications to ensure seamless user accessibility and bug-free performance.
- Collaborate closely with software development teams to document, report, and track bugs through resolution, enhancing overall application stability.
- Conduct functional and integration testing for core client products including:
  - **SkyChat:** Customer support application featuring live chat interfaces, helpline redirection, and user inquiry forms.
  - **SkyVat:** Specialized VAT calculation application requiring precise financial data input validation and calculation accuracy checks.
  - **Prime Bank Grammar School Portal:** Educational portal requiring verification of academic admissions flows, notice boards, and CSR integration components.
  - **Prime College of Nursing, Dhaka Portal:** Institutional healthcare education web portal involving validation of online application flows, program exploration modules, and campus life resources.

Student Assistant Intern | *VUES (Virtual University Expert System) Operations, AIUB • June 2023 – December 2023 | Dhaka, Bangladesh*

- Reported directly to the Director of IT Operations to streamline departmental system needs.
- Encoded and maintained sensitive student and employee data while upholding confidentiality and data integrity standards.
- Conducted biometric registrations following strict compliance protocols.
- Supervised the printing, validation, and distribution of official institutional identification cards.
- Provided direct user support for the Student System to resolve technical issues promptly.

PROJECTS & RESEARCH EXPERIENCE

AIUB Portal System (Software Quality Assurance Project)

- Designed and executed structured test cases derived from functional requirement specifications.

- Identified, documented, and tracked functional defects and usability inconsistencies to ensure platform reliability.

Real-Time Weather & Agricultural Environmental Monitoring (Research Project)

- Researched an IoT-enabled environmental monitoring setup tracking real-time water pH, temperature, and humidity metrics.
- Validated wireless data transmission to a centralized web application for real-time mobile tracking.

EDUCATION

Bachelor of Science in Computer Science and Engineering (BSCSE)

American International University-Bangladesh (AIUB) | Graduation: 2020 – 2024 | CGPA: 3.29 / 4.00

EXTRA-CURRICULAR ACTIVITIES

- **Student Volunteer:** American International University-Bangladesh (2022 – 2024)
- **Member:** AIUB Computer Club (2023 – 2024)
